

Setup:

Print this page on card stock. Trim the page just below the base line of the visuals. Fold the page along the top line to give extra strength. (You may want to tape the edges together.) During the presentation, show the strip and place the clothespin on the top of the strip for each visual.

I got this idea from a missionary named Louise Moore who used a similar lesson as she ministered in Africa. She spent many years in Africa as a missionary with Child Evangelism Fellowship and accomplished great things for God. This lesson was developed as a tribute to her and her ministry.
